

WBAALAS Trade Fair

Wednesday March 26, 2014 at the UW Center for Urban Horticulture

Doors open at 8 AM with a continental **breakfast**

Talks start at 8:30 AM and we finish up around 2 PM

We'll have interesting and informative **speakers**, sack lunches from *bay laurel catering*, **Awards** and the ever popular **Raffle**.

Drug Development: From Discovery to Patient

Kim Stocking, DVM, DACLAM – Consulting Veterinarian

An overview of how a potential drug candidate becomes an approved drug

Monkeying Around: Environmental Enrichment for Laboratory-Housed Primates

Rita Bellanca - WANPRC

An overview of the types of environmental enrichment we provide at the Washington National Primate Research Center and why we do what we do

The Power of Observation

Rajesh K. Uthamanthil, DVM, PhD, DACLAM – Fred Hutchinson Cancer Research Center

The power of observation is key to success in scientific research. It is equally important in the area of lab animal science. Often times, what separates the best lab animal techs from the rest of the group is their observation power

Disaster Planning Roles

Stephen Durkee – Alternative Design

Discussion of responsibilities for different participants in disaster response and planning

Anesthesia -- It's a Gas!

Jim Houts - Anesthesia Systems Consultant

While the topic is very broad, attendees will be introduced to issues related to Waste Anesthetic Gas Management -- a current hot topic in the Veterinary Research Community-- and learn techniques to help reduce the risk of exposure

Many Thanks to

Allentown, Ancare, Andersons Lab Bedding, Animal Specialty, Inc., BioFresh Lab, Edstrom, ErgoFit Consulting, Jackson Laboratory and Lab Products, Inc.

for their additional support to this year's program!
